Franchise Information

Italian restaurant

Bethnal Green & Whitechapel

12pm - 2pm, 5pm - 10pm

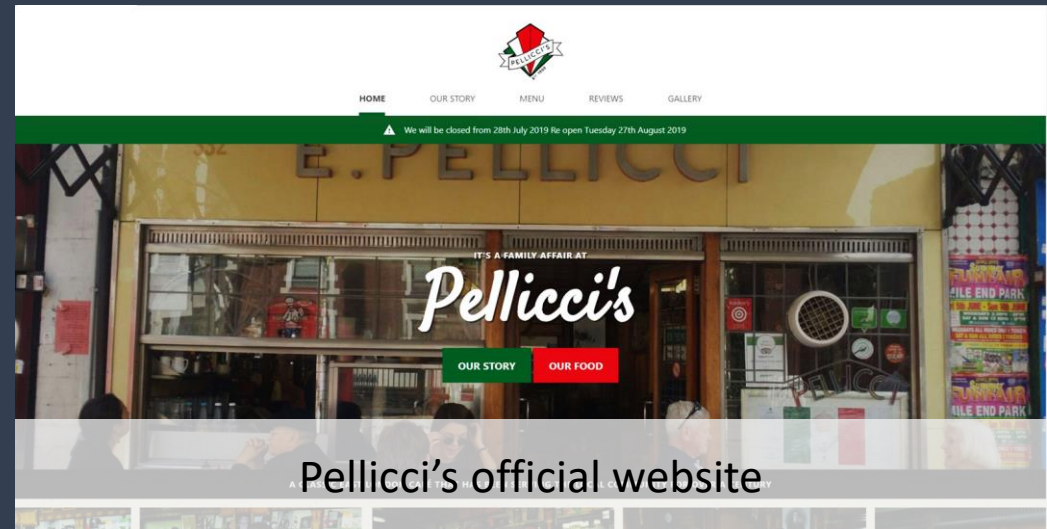

Casual dining

On site research

Analytical Expert: Zi Yen Chang, Saeed Kaddoura

Analyse the current performance and identify issues

Challenges & Problems

Challenges & Problems

Challenges & Problems

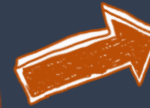

No Storage
of Records

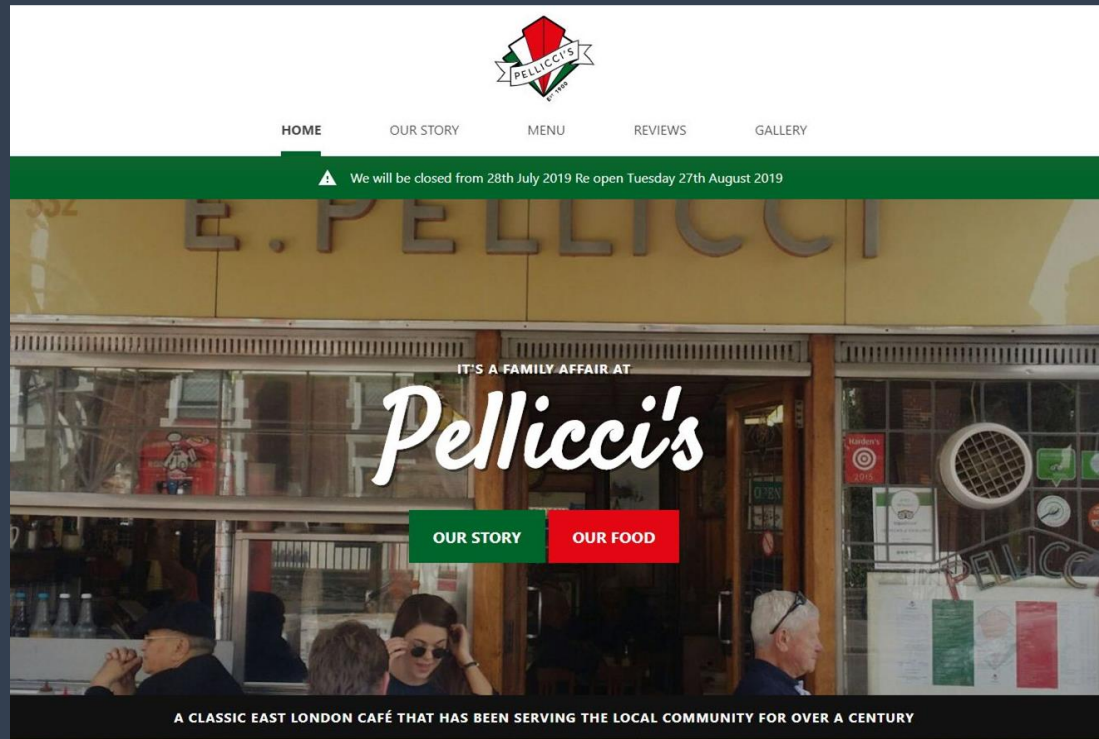

No Online
Reservation
Functionality

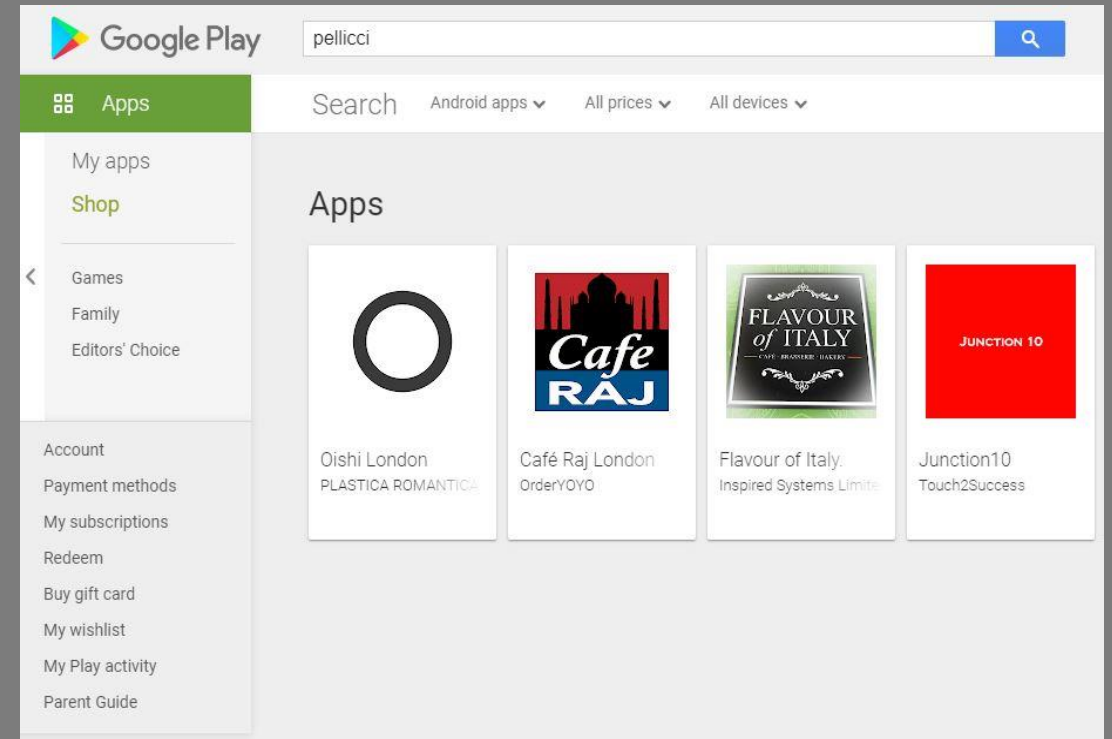

No Mobile
Application

No Online Reservation Functionality

No Mobile Application

Resolution Proposal & Implementation

Resolution Proposal

**Develop an application available
on customer's devices**

Features:

- Menu view
- Online reservation
- Pre-arrival order with customization options
- Pre-arrival payment

Resolution Proposal

**Develop an application
to be used in restaurant**

Features

Customer accessible devices:

- Menu view
- Order with customization options
- Bill view

Staff accessible devices :

- Table booking
- Order view
- Bill view

Implementation

Customers

Order food via the application using the tablet provided on the tables

Make payment at their table via the tablet

Implementation

Staff

Handle table bookings using fixed tablet at the front of the restaurant

Able to check all order information which is stored within a database

Get notified when customers have made payment at their table

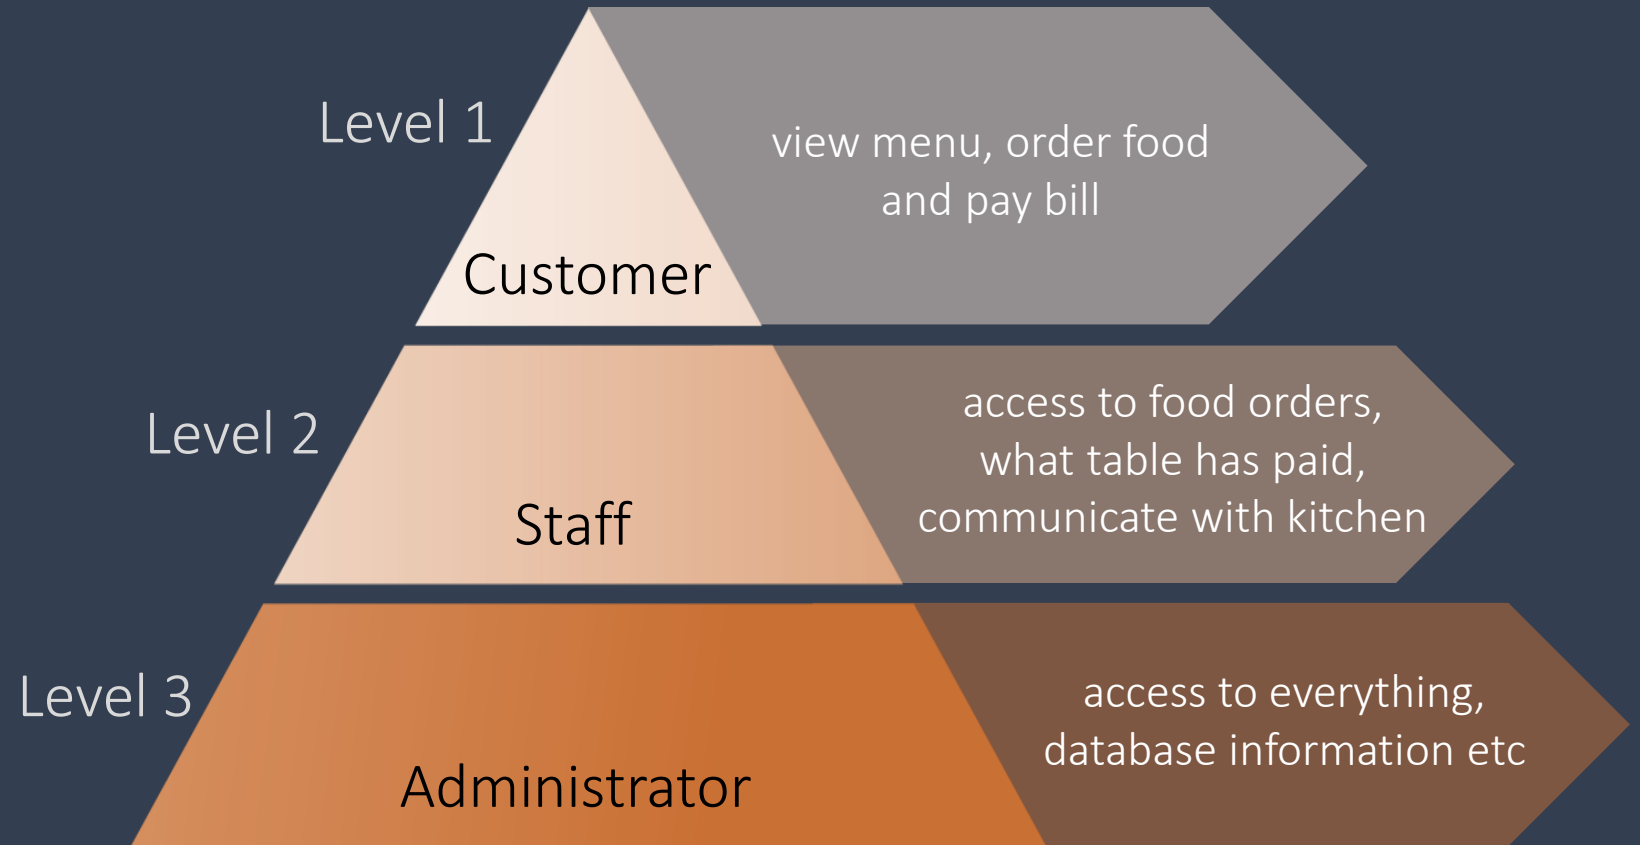

Technical Solutions

Technical Solutions

- Create three level abstraction of the application
- Responsive interaction due to small application size
- Restrict accessibility for different users

Technical Solutions

Three Level Abstraction

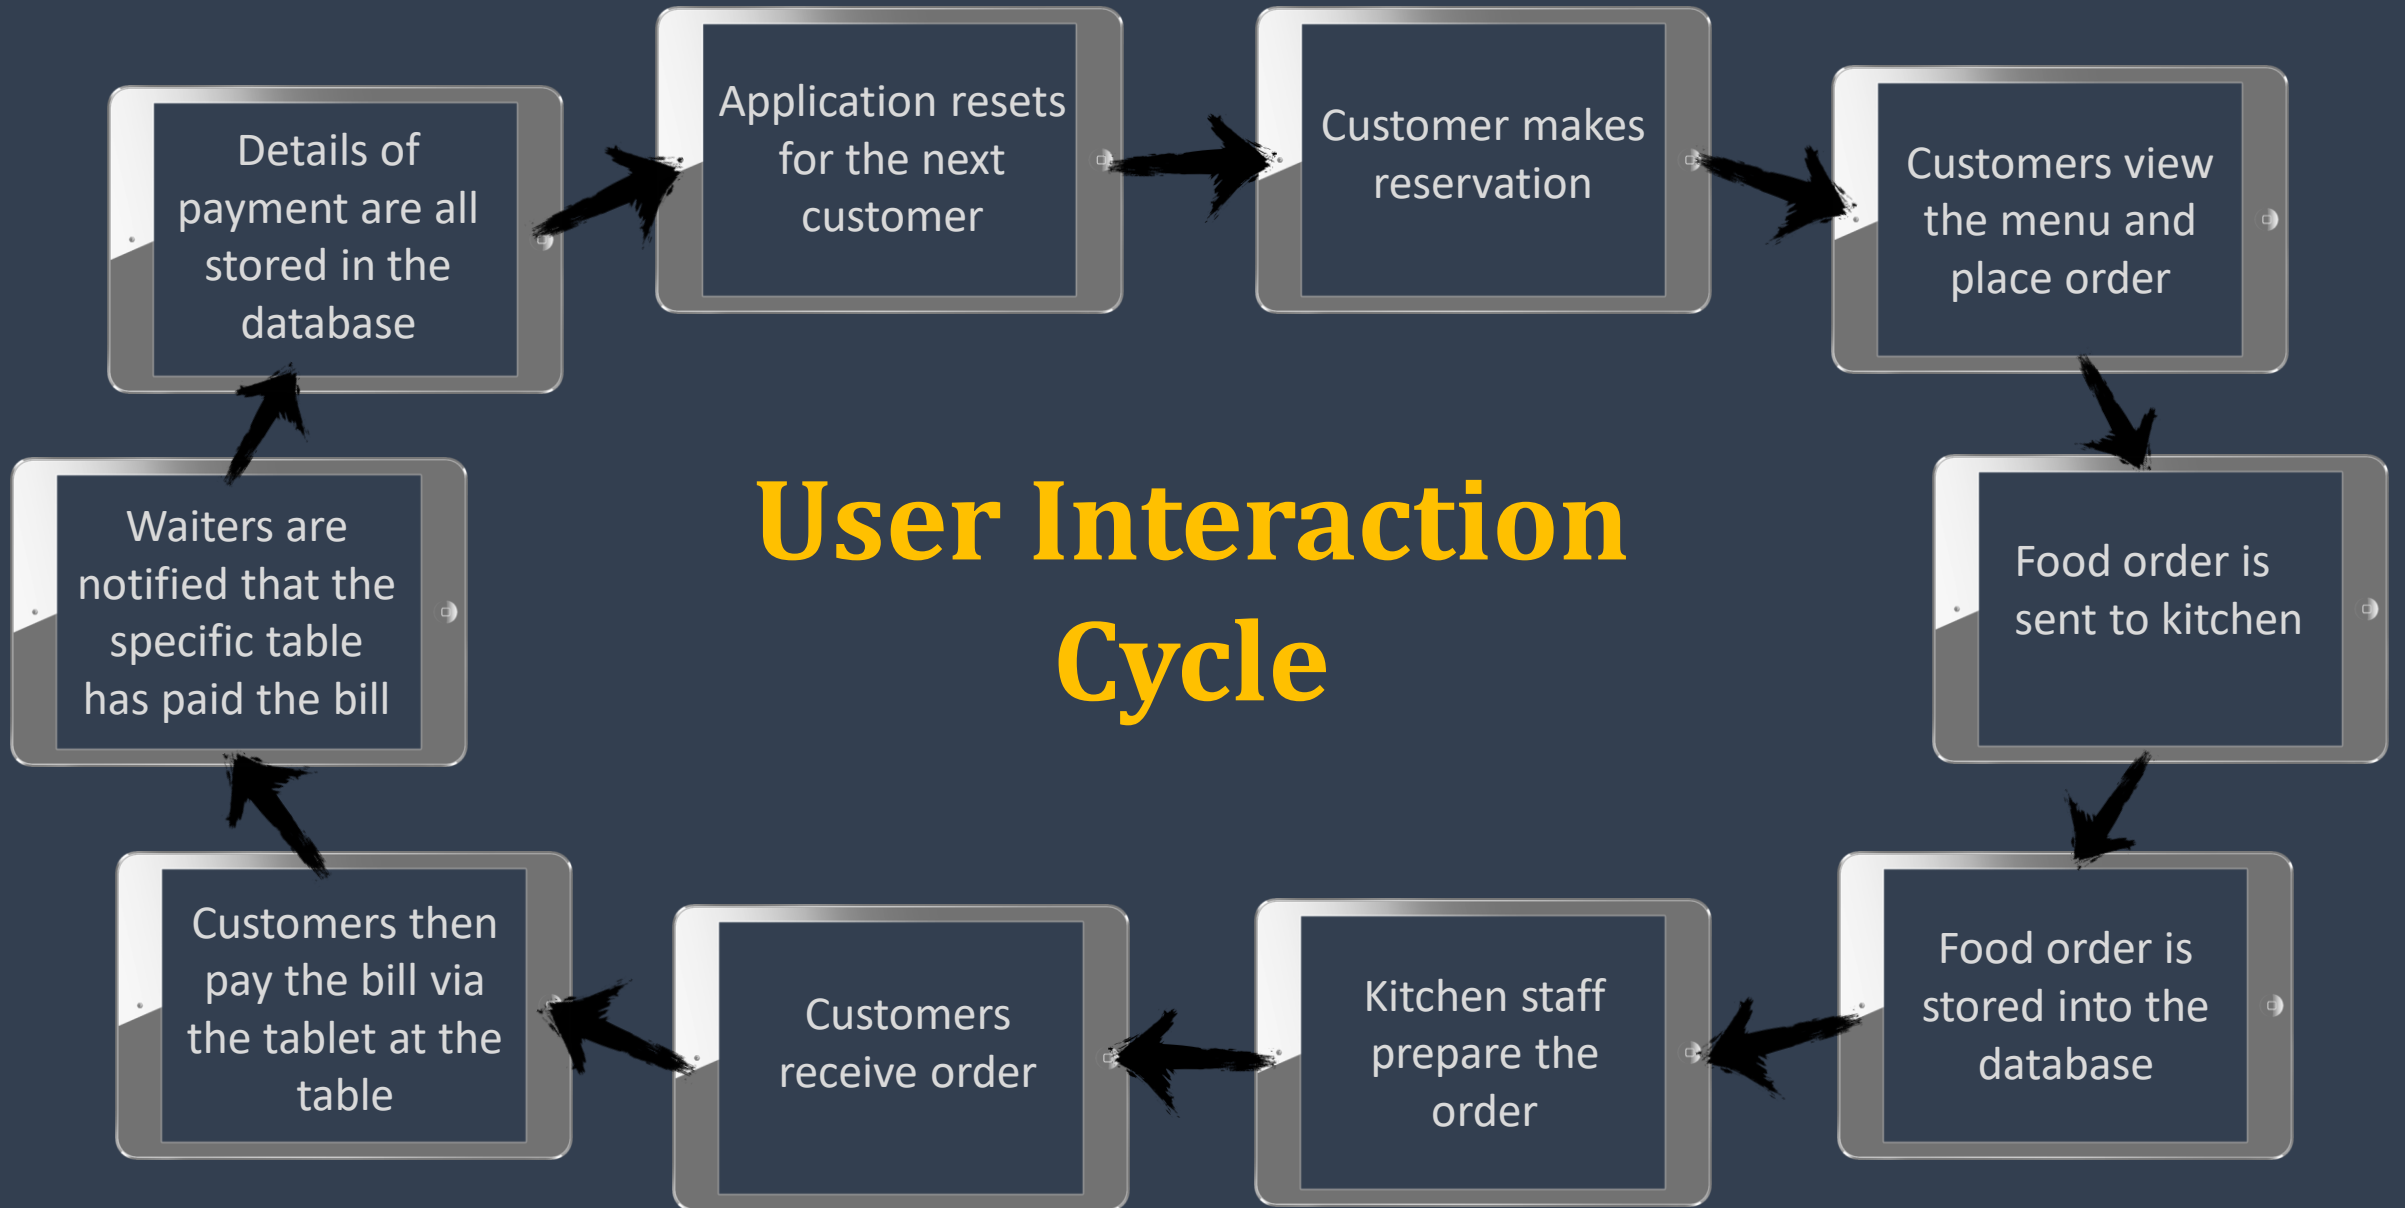

Technical Solutions

Programming Languages & Paradigms

- Android application within Java (Front-end)
- Written in a Procedural-oriented paradigm
- Information is stored within a Database (back-end)
- An online server will host the database

User Interaction Cycle

Impacts

Impacts

Customers

Able to book table
in advance

Shorter waiting time

Better dining experience
without language barrier

Application Reservation Interface

HOME OUR STORY MENU REVIEWS GALLERY **Reservation**

 We will be closed from 28th July 2019 Re open Tuesday 27th August 2019

Online Reservation

Book for your table!

Choose an available table to book

BOOK NOW

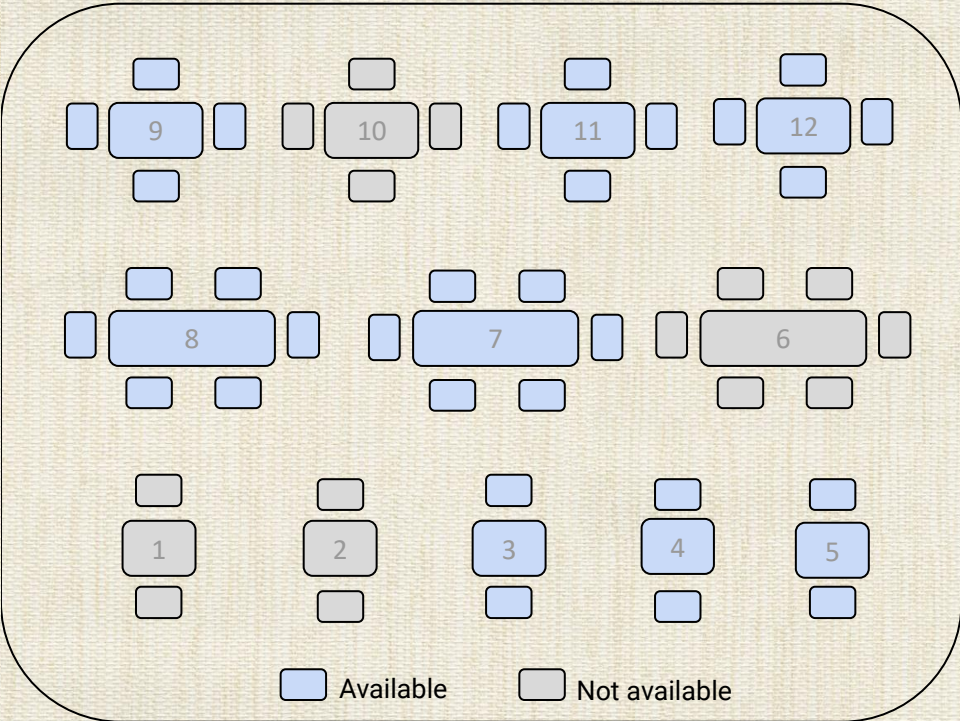

Diagram showing 12 tables (numbered 1-12) arranged in a 3x4 grid. Tables 1, 2, 6, and 10 are marked as 'Not available' (grey). Tables 3, 4, 5, 7, 8, 9, 11, and 12 are marked as 'Available' (blue). A legend at the bottom indicates: Available Not available

Impacts

Restaurant

Workloads decreased,
efficiency increased

No worries about the food
order tickets and records

Profit increases
